### FINNEGAN

Finnegan was found by a kind onlooker who brought him to the Shelter. He had broken bones, scrapes and bruises from a hit-and-run. From the start, Friends knew Finnegan's surgery and recovery was going to be extensive and expensive, but we also knew this sweet boy deserved a second chance! Our Friends' community stepped up and funded his emergency medical care, including surgery to repair his broken femur and tail. After spending a few weeks with a wonderful foster family, Finnegan was quickly adopted into a loving home.

### ARIEL

A good Samaritan brought this tiny, injured kitten (found on the Capital Beltway!) to the Shelter for medical care. Friends funded the surgery to remove her badly injured leg and help nurse her back to health. A loving foster family helped Ariel along the way, and weeks later, Ariel didn't skip a step as she headed back to the Shelter and found her forever home.

Thank you for attending our event and helping every pet find their 'forever home'

Here are a few highlights that Friends accomplished in the last year. We couldn't have done it without your support:

-  More than 500 spay/neuter surgeries for community cats
-  Life-saving and life-improving medical care for more than 100 shelter pets
-  Comprehensive medical tests for senior pets, including x-rays and blood work
-  Emergency dental care for dogs and cats
-  Free or half price adoptions
-  Parasite prevention for all dogs, cats and rabbits that come through the Shelter.
